The REA has been celebrating the industry 'Game Changers' for 19 years at the annual British Renewable Energy Awards. Our first ceremony took place in 2006 and now this event has cemented its place as one of the industry's most prestigious events.

This year will be our 19th awards ceremony and gala dinner where we will celebrate all of the innovators – both individuals and organisations – who are helping to combat climate change and push for Net Zero by 2050.

We have also partnered with Aston University and Supergen Bioenergy Hub again to host the '**Future Game Changers**' award. With this we recognise the inspiring young individuals who are striving to alter the UK's course as we push for a future built on renewable energy and clean technology.

Last year at the JW Marriott Grosvenor House Hotel in London, we honoured a fantastic line up of winners and finalists. We are building upon past successes and are pleased to announce that this year's British Renewable Energy Awards will take place at the **Sheraton Grand, London Park Lane Hotel** in their famous Grade II listed, Art Deco ballroom.

We have a superb variety of branding and sponsorship opportunities in association with the 19th British Renewable Energy Awards. Our helpful team will be happy to work with you to understand your requirements and to develop a bespoke sponsor or supporter deal which will enable maximum brand exposure in the run up to the event and on the night.

As a not-for-profit organisation, sponsorship enables the REA to keep the event accessible for everyone across our diverse sector and shine a brighter spotlight on all the outstanding work being done.

To discuss the range of options available and support the UK's drive to Net Zero, please email sponsorship@r-e-a.net. We would love to hear from you and we're very happy to work with you to enable you to reflect your objectives.

£25,000

About REA

The REA is the UK's largest trade association for renewable energy and clean technologies with around 500 member organisations operating across heat, power, transport, finance and the circular bioeconomy. The REA is a not-for-profit organisation, established in 2001, representing renewable energy and clean technology companies operating in over 14 sectors, ranging from biogas and renewable fuels to solar and electric vehicle charging, and composting to biomass, giving us a very holistic industry approach. Member organisations range from major multinationals to sole traders.
