

The UK Plastics Pact Roadmap to 2025: Refresh

Introduction

With 18 months of The UK Plastics Pact remaining, this is the third iteration of the Roadmap to 2025. Delivering all four targets will be contingent on the effective implementation of packaging reforms along with significant investment by business. Using the latest available insight on packaging policy developments, the Roadmap sets out:

- the critical pathway to achieving Targets 1 & 4;
- the actions that need to happen by 2025 in preparation for the effective implementation of key policy measures; and
- the actions that need to be delivered in the period 2025-2030 to ensure the delivery of the final two Targets 2 & 3.

As well as guiding members and supporters, it also acts as a tool to galvanise wider action by governments, funders, investors, NGOs and businesses who are not members of The UK Plastics Pact, but without which the Pact targets will not be reached.

The draft Roadmap can be found [here](#). Please review the document and provide feedback **by COB on Thursday 12 September**.

Please note that this consultation is running alongside the Target 1 consultation as they are interlinked pieces of work.
